**Dates of the second Closed Alpha Test and reveal of the first alpha gameplay trailer of The Cycle:**

Hello, Prospectors! We are happy to announce the dates of the second Closed Alpha Test and to reveal our [first alpha gameplay trailer](#) of The Cycle.

**The tests will be running on the 18th, 19th and 20th of September. Servers will be open each day from 19:00 to 23:00 CEST/17:00-21:00 UTC.** It is important to note that the second Closed Alpha Test is still under NDA, and people who share in-game footage or screenshots can have their access to the game removed. However, you are free to talk or write about the game declaring your involvement in testing it.

**In the next two weeks we'll be sending out e-mails with the invitation to those of you who registered,** so please check your mail regularly for updates! And don't forget to check your spam folder ;) Participants of the first Closed Alpha Test can automatically access the second Closed Alpha Test. **The keys provided for the first Closed Alpha Test will still be valid.**

By taking part in the test you will be among the first players to see the game and you will have the opportunity to provide direct feedback to the development team. And remember that you can join our Discord to engage with the development team and community at any time!

**If you haven't signed-up for Closed Alpha Test yet, go ahead and follow this link:** <https://thecycle.game/>

**. The Cycle will enter Alpha testing in August:**

YAGER, the developers behind Spec Ops: The Line and Dreadnought, today unveil The Cycle, a match-based First Person Shooter with a twist.

**The Cycle will enter Alpha testing in August, you can sign-up at our website:** <https://thecycle.game>

**. The Cycle Closed Alpha Test Dates:**

Hello, Prospectors! We are happy to announce the dates of our first Closed Alpha Test.

The test will take place **from the 9th of August till the 12th of August**. Servers will be open each day at **17:00-22:00 CET**.

In the next few days we'll be sending out emails to those of you that registered with information on how to proceed, so please check your mail regularly for updates! We had more registrations than we could accommodate for during this phase of early testing, so unfortunately not everyone that registered for the Closed Alpha Test will be getting an invite for this first test. But don't worry, we'll have updates regarding future tests very soon!

We'd like to thank you all for your interest in participating in our first Closed Alpha Test for The Cycle; we had an amazing response to our announcement, and we're all excited about the next steps: getting players into the game and acting on your feedback! As our goal for this test is to work very closely with our tester community to gather feedback and to implement suggestions and improvements.

As this is a work-in-progress version of the game, it is possible that you may encounter bugs or crashes that may lower the quality of your in-game experience. We'd love your help in identifying these bugs.

It is also important to note that the **Closed Alpha Test is under NDA**, and people who share in-game footage or screenshots can have their access to the game removed. However, you are free to talk or write about the game declaring your involvement in testing it.

And remember that you can check our Discord for up-to-date information, and of course to chat with the team and community!

If you haven't signed-up for Closed Alpha Test yet, but would like to, please follow this link: <https://thecycle.game/>

**. First Closed Alpha Test is completed, thank you and see you in the next one!:**

Hi Prospectors!

**Our first Closed Alpha Test is completed and we would like to thank every each and one of you who was a part of it! We are so thrilled about so many positive responses we've got so far!** There were more registrations than we could accommodate, so unfortunately not everyone received an invite. But don't worry, there are more tests coming soon and we will definitely send more invites next time.

We've started going through the feedback from completed surveys and Discord, and we're already working on plenty of things to fix, tune, and new features that you'll be seeing in our next Closed Alpha Test. Remember, these tests aren't just to find bugs or balancing issues, they're to figure out what works, what's fun, and what you think The Cycle could be; the more you can tell us about your experiences, expectations, and ideas, the better!

**The dates for the next test sessions will be announced soon, so stay tuned for more info!**

In the meantime, here are some fun facts from the first Closed Alpha Test.
