About This Game

Powered by the Essence Engine 3.0, the Company of Heroes 2 series feature some unique mechanics rewarding thoughtful players. From the TrueSight™ system that emulates the units' line of sight to the cover-system that encourages clever unit placement – not to mention the combined arms approach and the hard and soft counters gameplay that will make you think twice before trying to destroy a tank with a simple squad of riflemen – each game presents players with an uninterrupted stream of meaningful tactical choices that can turn the tide of war.

PICK YOUR FIGHT

NB: multiplayer standalones allow you to play on any map against anyone owning any COH2 product.

[The Company of Heroes 2 base game](#) gives you access to two multiplayer armies from the Eastern Front: the Red Army (SOV) and the Wehrmacht Ostheer (GER). It also comes with a gritty single-player campaign that will give you a chance to familiarize yourself with the series core tenets. Step into the boots of a Soviet commander of the Red Army, entrenched in

brutal frontline warfare to free Mother Russia from the Enemy invaders! Adjust your tactics to take into account the brutal weather conditions and wield the might of the Soviet Empire as you smash your way to Berlin.

THE WESTERN FRONT ARMIES

[Company of Heroes 2: The Western Front Armies](#) adds two new factions from the Western Front to the roster of playable multiplayer armies: the Oberkommando West (OKW) and the US Forces (USF). While the former puts you in charge of an aggressive and powerful army with very specialized and elite units – yet in very limited numbers – the latter introduces an expeditionary corps that allows for a variety of approaches and very powerful combined arms tactics, but which inevitably falls a bit short in the heavy armor department.

ARDENNES ASSAULT

[Company of Heroes 2: Ardennes Assault](#) offers a compelling single-player campaign for the USF faction revolving around the Battle of the Bulge. Engage in a dynamic non-linear campaign across the Ardennes landscape consisting of 18 scenarios, choose between three iconic companies, customize their abilities and bear the consequences of your actions as overall company health persists between missions.

THE BRITISH FORCES

[Company of Heroes 2: The British Forces](#) is the latest entry in the series and features this iconic Allied army from WWII (UKF). Experience a unique tech-tree that challenges the player to balance the constant trade-off between mobility and defense. Surprise your opponents with your development choices and an open end game configuration. Enjoy an army with character and distinctive units & abilities, from the Churchill Crocodile flamethrower tank to the RAF glider.

COMPANY OF HEROES 2

FACTION PROFILES

An army for every player

Soviet Army

Mother Russia playing its manpower card. Great for initial mass production, but limited unit upgrades force player to build fresh new units instead of capitalizing on veteran units. Rather weak with and against armor units.

Introduced in COH2

Wehrmacht Ostheer

The early-to-mid war Eastern front German army. A very tech-advanced but defensive faction, with a slow start. What it lacks in manpower it makes up for it with various unit upgrades, allowing players to fully benefit from veteran units.

Oberkommando West

The late war Western front German army. A very aggressive and powerful army with very specialized and elite units, yet in very limited numbers. Requires to play with a clear intent. Devastating armor by late gamesituation.

Introduced in COH2; TWFA

U.S. FORCES

The typical US expeditionary corps. Allows for a variety of approaches. Very powerful at combined arms tactics, but inevitably a bit weak in the heavy armor dept.

BRITISH FORCES

Two very different armies contained in one. Tech tree is focused around constant trade-offs between mobility VS defense, leading to rather different mid and end games based on the choices made. Surprise your opponents!

Introduced in COH2; TBF
